

ZEGO[®]MAGAZINE

Building Business Together

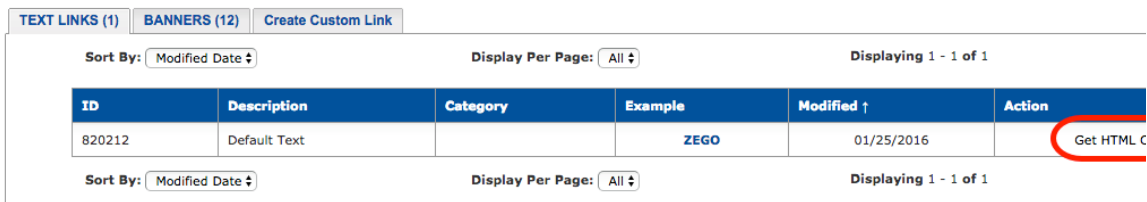

Hi Danielle -

Now that you know where to find your personalized affiliate links, let's talk about how to use your links.

There are many ways for you to share your affiliate links. Think of it as an a la carte menu. Some options may work really well for you and some may not. That's OK. Just use the option that is easy for you and will reach your community, whether they use Facebook, YouTube, or other social platforms.

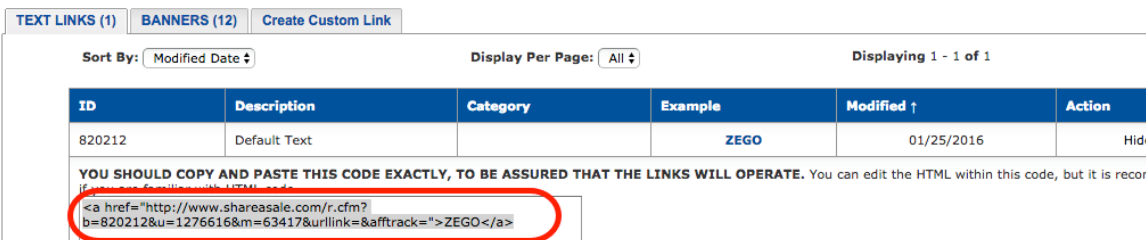

I'm addicted to Facebook and want to share my affiliate link there. How can I do that?
It's an easy three-step process.

First, log in to the ZEGO area on ShareASale and click "Get HTML Code" as shown below:

ID	Description	Category	Example	Modified ↑	Action
820212	Default Text		ZEGO	01/25/2016	Get HTML Code

Next, copy your unique affiliate link as shown here:

ID	Description	Category	Example	Modified ↑	Action
820212	Default Text		ZEGO	01/25/2016	Hide

YOU SHOULD COPY AND PASTE THIS CODE EXACTLY, TO BE ASSURED THAT THE LINKS WILL OPERATE. You can edit the HTML within this code, but it is recommended that you use the code as is.

```
<a href="http://www.shareasale.com/r.cfm?b=820212&u=1276616&m=63417&urlink=&afftrack=">ZEGO</a>
```

Finally, PASTE this link into your Facebook post.

I'm a blogger and want to embed my affiliate links in a blog post about ZEGO. How do I do that?

Follow the instructions for sharing on Facebook to find your unique affiliate link. Add the HTML code to your blog/website as you would any other HTML code.
